

Recessed picture luminaire with dual light engine

Flexview is a recessed lay-in luminaire with a dual light engine combining low power edge-lit technology for its picture window with a separate sophisticated, highly efficient low glare optics for main space illumination. Flexview allows creativity, enhancing the look and feel of a space whilst still providing quality functional lighting.

Applications: Teaching spaces, Offices, Corridors, Waiting rooms, Break-out spaces, Reception areas, Retail, Windowless rooms.

- Dual light engine design, perimeter light engine for main illumination and secondary light engine for the picture window
- Black 'invisible' light source, metallised low glare and white reflector options
- Wattage selectable during installation
- Edge-lit panel remains at constant brightness (does not dim)
- Image screen printed onto 1.5 mm polycarbonate TP(a) rated fire-retardant panel
- Multiple kit options available, all with the primary light engine only around the perimeter of the array
